BROOKLYNS SCORE THEIR STRAIGHT FICTORY. New Yorks Successful at Pittsburg for a Change-Reds Turn Tables on the Quak-

ers-Baltimore Beats Louisville-Boston Beats Chicago, and Washington Wins The Brooklyns again defeated the Clevelands yesterday and incidentally captured their sixth straight game, or the eighteenth out of the last nineteen played. Hanlon's men have a lead of 118 points over the Bostons, who defeated Chiengo by scoring 4 runs in the thirteenth inning. As St. Louis was also beaten by Washington and Cincinnati outplayed Philadelphia, the Baltimores by win-ning at Louisville regained third place. New York managed to get away with Pittsburg, but it didn't get the Harlem team out of ninth place. The results:

CLEVELAND, June 20.-Brooklyn played fast ball throughout the game to-day and Cleveland did so in the last three innings. Brook-lyn's runs were made on bunched hits and magnificent base running. In the fifth Jones was hit by a pitched ball. Grim ran for him and scored. He crossed the plate just in time to go to bat for himself. He fouled out. The

For some unknown reason Wilson re-Heved Hartman at third, and did not perform as well as the score indicates. He fielded bunts awkwardis, and three of the Pirates' hits were made in his territory. Tom O'Brien, who cut off a Pittsburg run by jumping high for Clark's line drive in the third, and George Davis did Kew York's best fielding, but the most artistic work of the game was done by Ely, who htopped no less than four bids for hits around and back of second base. Louisville. June 20. Haltimore won a dull and uninteresting game through the Colonels inability to hit when men were on bases. Clarke played thought on the many was directly responsible for Baltimore's two runs, his error preventing the third out in the first inning. In sliding to a base, Kenster dislocated his wrist and had to retire, but the injury was remedied in time for him to resume the game in Louisville's half. The score:

BROMLEY & CO.'S COLORS IN THE VAN AT SHEEPSREAD BAY. Bendoran Wins the First of the June Han-

dicaps-The Suburban Winner Imp Well Beaten by Jennings's Colt-Maximo Gomez Wins in Record Time on Turf. Sheepshead Bay was again the Mecca of several thousand followers of racing yesterday fternoon and they were treated to lively sport under atmospheric conditions that would have insured a pleasant outing anyhow. Between races there was considerable gossip concerning the Maher-Banastar affair on Suburban day, already reported in full, but nothing new developed. W. H. Clark was present but did not care to enlarge on the incident. It was hinted that the stewards may look into the matter later on and that Mr. Clark may make a formal statement to them.

The first fixture on the card aroused considerable enthusiasm. This was the Foam Stakes for two-year-olds over the last five furlongs of the Futurity course. Perry Belmont scratched Contaion and J. J. Hyland withdrew Magnificent in favor of his other Rayon d'Or youngster, Brigadier, A. H. & D. H. Morris added Primrose Day, making up a field of twelve. Of those Water King and Silver Garter were coupled in the interests of Green B Morris, but were passed over by the form students who pinned their faith to the Faverdale colt Stuart, Mesmerist, Bromley & Co.'s Albert-Hoodoo colt, ruled a steady second choice at 4 to 1, and he got away with the stake by a length and a half, with Flaunt, Silver Garter and Premature next in order, heads apart. The other specialty provided was the Coney Island Handicap, first of the June series, which also includes the Sheepshead Bay and the Long Island handicars. The distance yesterday was six furlongs on the main track, and a dozen of the best sprinters in training turned out, including the Suburban winner Imp. She naturally had a confident following, but there was an even more pronounced play but there was an even more pronounced play on Bendoran, W. B. Jennings's clever fouryear-old by Sir Modred—Oran. They went to the post equal favorites and had the finish between them. Bendoran took the track after flagfall and set a clip that tiploed the others. Isidor made the best attempt to keep within hall until they turned for home, where he had enough and Imp moved into second place. Bendoran was not to be caught, however, and won by a length and a half. Imp was two lengths in front of St. Cloud, who beat Swiftmas a neck.

Larva started favorite, with Peat next in demand. Neither had anything to do with the finish, which resulted in an easy two-length victory for The Burlington Route. Mazarine took the place by a neck from Imperator, who made his usual strong bluff, but falled to stay quite home. Mazarine's owner, Newton Bennington, boosted the winner's entered price from \$500 to \$2,000 and secured him at the latter figure. G. A. him at the latter figure. G. A. Muller, owner of Savory, took Larva after the race under the customary conditions.

Miss. Patron spraing a big autprise in the second event, a race for three-year-old filles over the one-mile course. She went begging at odds of 20 to 1, while the plungers divided their coin between Bettie Gray, the odds-on favorite, and Sweet Caporal, at 7 to 5. The first choice flattered her backers up to the last sixteenth, where Miss Patron came along with a brilliant burst of speed and won easily by four lengths. The challenge proved too much for Bettle Gray and Sweet Caporal beat her two lengths for the place.

Of the eight starters in the two-year-old maiden race, Penceful, Herbert and Knightbannaret were the only serious contenders at any stage, and they ran in the order named throughout. Peaceful winning by a length, while Herbert just nosed out the other. Maximo Gomez ran a smart field into the ground in the last race, one mile and a furlong, for three-year-olds and upward, on turf. He led all the way and won galloping by four lengths, in time a fall second faster than the track record set up by Glomning and Long-treet when they ran their dead heat June 23, 1863. The summary:

Nico, 2:08%, the fastest trotter ever bred in New England, the property of Mr. J. M. Forbes New England, the property of Mr. J. M. Forbes of Milton, Mass., died at the Readville track Saturday night of recumonia. Nico, in the opinion of his owner, was a promising can-didate for the championship of the track. He was a bay gelding, 15-2, and showed his ability to trot a quarter better than 30 seconds. His record was gained at Louisville on Oct. 1, when he defeated seven horses, including Askey.

Trotting and Pacing at Bethlehem.

Bethlerem, June 20.—The regular spring meeting of the Feunsylvania State Fair Association opened here today. There was large and enthusiastic rowd present. The weather was here and the track fast. The first event, the 2.40 trot, was won in straight heats by Maid Thorne. A. B. C., an unlooked for golding, supered the 2.30 pace, after being besten by a nose of the first heat. The 2.19 pace was postponed after three heats had been decided, a hard rainstorm coming on at this point. Summary: 2.40 class, trotting; purse \$300;

NEWS OF THE WHEELMEN.

BRIDGE COMMISSIONER SHEA IN-VITES CYCLISTS TO MEET HIM. Plan for a Path on the Big Structure Will

Be Considered To-Morrow-Murphy Will

Make a Trial Behind a Locomotive To-Day-The Harway Avenue Bridge A letter from Commissioner of Bridges John Shea was received yesterday by Chief Consul Belding of the L. A. W., who is Chairman of the joint committee representing the various eyeling organizations of New York and Brookyn, on the bridge path question. In his letter the Commissioner stated that he, with Chief Engineer Martin, would meet the committee at 4 o'clock on Thursday afternoon and dis-cuss the newest project for the wheelway across the structure. The plan is the one rebeen admitted to be free from any of the objections urged against other schemes. It does away with the great bugaboo of the approaches by letting the cyclists on the New York and use the extreme northern stairway that rises on the uptown side of the roadway and carrving them out at grade on Sands street at the Brooklyn end. Chief Engineer Martin has said that the weight of the path would be no objection to it, and the whole plan as it stands is said to have met his approval. The committee, carefully selected and representative of the wishes of the great body of levelists, is willing to indorse the plan, and cannot conceive what new obstacle will be presented by the officials. This is the basis for the horseful spirit in which the committee will approach the Commissioner and Engineer to-morrow. take what they can get now, anything in the form of a path across the bridge, the great popularity of the latter will lead to betder things in the way of improving the approaches. The full solution of how to get on and off the bridge they are willing to leave to the future, if Commissioner Shea will only do what he can for some plan to cross the span on a wheel without imperilling life.

This afternoon, on a plank path built beween the rails, Charles M. Murphy of the Kings County Wheelmen and the former star of the cycling path will make a trial trip at riding behind a locomotive and a car, a feat by which he house to ride a mile in one minute on June 30, as part of the entertainment to b furnished during the State meet of the L. A. W. at Patchogue. Such a performance never be fore was attempted in this part of the country. It was once hazarded in the West three years ago by E. E. Anderson, who is still alive, but he did not succeed in going a mile in one minute. The scene of the great ride will be at Maywood. Long Island, on a branch strip of railroad between Farmingdale and Babylon. A board track has been laid between the rails A board track has been laid between the rails a little more than two miles long. An engine has been tried over it, to see if even pace could be maintained, with results that were pronounced satisfactory. The first quarter was made in 15 seconds, the second in 15 seconds, the third in 15 seconds and the fourth in 14 seconds. The idea will be on the day of the test to run each quarter in an even 15 seconds. To-day will be simply Murphy's trying out of himself to see if he is equal to the task.

Several inquiries have been received by THE SUN asking if the ferry hetween Fort. Hamilton and Staten Island would run magning this summer, and other riders have asked when the Manhattan Elevated Railway would begin again to carry wheels on Sunday. The ferry between the Long Island shore and Staten Island will begin operations on next Saturday morning, the first boat leaving the end of the Shore road, at Fort Hamilton, at Doctock and landing at Rosebank. S. I. at the foot of the Fingerboard road, twenty minutes later. Boats will be run regularly on a headway of forty minutes. This will enable New York riders to make an enjoyable circular trip through the three boroughs and onen a convenient route for the riders of Richmond, Kings and Queens countles to tour in each other's territory. Regarding the carrying of wheels on the clevated trains here, the directors have not found it so profitable as have the directors of the Brook'n roads, and the decision has been made not to carry bicycles at any time.

at any time.

Harway Avenue Bridge, connecting Bath Beach and Coney Island, it was promised by Deputy Commissioner Farrell of Brooklyn would be finished by June 1. Vesterday it was not even good walking between the bridge and Neptune avenue, Coney Island. The work of dumping refuse durt and ashes is till in progress. Some dars the entrs have rolled the surface as that it is possible to ride in the rats, but on other days the canacter of the filling-in matter, makes twalking a masty and toling-in matter, and the distance he had to grade was about 1,000 feet with a width of sixty feet. There was a time limit on the contract has not yet been called to account and even new promises have not been exacted.

John Barnett, Chairman of the Base Committee of the Associated Cycling, Clubs of Long Island, which have declied to hold a twenty-five-mile road race on Labor Day, says that in his outdoor have well be no necessity of the clubs setting into the conflict now waging between the N. C. A and L. A. W., because by Sept. 3, the date of the race, one side or the other will have been victorious and "all ammeters will look alike." It is planned to hold the race on the Coney island Boulevard, if permission can be obtained, but so bitter is the feeling between the rival organizations seeking racing centrol that the local officials of the L. A. W. will not wait until the time of the race draws near before acting. There has been no L. A. W. racing in this district this year and considerable N. C. A. snort, and it is anticipated that an effort will be made to prevent the race from being held.

The vote of the Long Island Associated Clubs on Monday night, asking for increased cycle police service in Brooklyn and suggesting also that the cycle squad should be transferred from the precinct of the Captain who thinks they should be doing foot duty, with head-quarters more centrally located, was in line with the need of these steps as pointed out in The Six. It is not only geographical convenience that would be served by locating the squad in separate quarters in the park, but it would be a long step toward better discipline and efficiency.
